Education ... our greatest CHALLENGE ...

There is no challenge to our modern society and no opportunity greater than educating our youth.

The old adage that says, "True intelligence is the power to adapt," has never held more meaning.

We have had and will continue to have a knowledge explosion. Four times as much is known today as was known in 1945.

U. S. Department of Labor studies point out that an individual's asset of experience increasingly will carry less weight than

his level of education. Many occupations of the future are not now even in existence.

The only sound educational target for such a future is to plan for those occupations which do not yet exist. Students must be able to learn how to learn and to apply themselves to new conditions as they arise.

This is no vocational assignment alone. Our nation needs intellectual as well as material growth. Our nation needs citizens as much as workers.

Owens-Illinois
is but one of the hundreds of American business organizations
concerned by this challenge and actively engaged in
specific ways and means to meet it.

Mike
To a friend that
I have not known
long - Good Luck in every life's
thing you do and in your life's
work. And may God Bless you with
a loving, kind-hearted partner in life.
Stay just the way you are and I am sure that
you will go far. And I hope I will still remember
your name if I when we meet again on life's busy
road.

Mike,

To a real crazy guy, who
keeps himself in lots of trouble -
Jess's room. What a joke!! Remember
the funky times at Delta.

Joe Perkins yea! the ~~colored~~^{colored} or
the seats, & the slumber party at
Mr. Herons. Don't forget the
imitations - Mr. Jess!! That one was
the best.

Best of Luck

Mike,
To a good friend
I know for a long
time. I hope we stay friends
for the rest of our lives. Good
luck for the rest of your school
years. Don't do anything I
wouldn't do. O.K.
